Tironem Quickly Connects You with Top Talent

Prepare

Tironem's powerful AI generates interview questions based on job titles and descriptions, or adapts to your specific inputs.

Pre-Screen

Tironem conducts an initial video interview, verbally asking questions in the flow and feel of a real meeting.

Assess

The real magic begins with intelligent, real-time assessment of answers. Tironem adapts to responses and gathers the best insights.

Connect

You can now connect with a refined list of top talent - and you've just saved yourself hours (or days) of tedious vetting time.

The Easy Way to Fill Positions with AI Recruitment Software

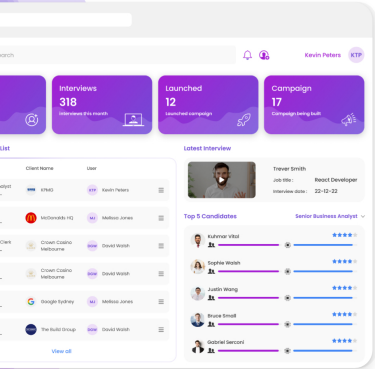

The hiring process doesn't need to be a chore - for you or your job applicants.

Candidates apply for roles through existing job boards. Those who match your criteria move on to an AI generated and managed video interview.

Applicants are quickly engage in a natural, verbal exchange as Tironem analyses and adapts to responses. You can then focus on the top talent without spending hours sifting through hundred of applications.

Tironem helps you focus on what matters - quickly uncovering top talent.
